March 21, 2011

Greetings LVPOA Member,

I am excited and pleased to tell you about our 2011 summer pest control program. Wolverine Pest Services is offering Lake Victoria two programs for the summer.

The mosquito program includes 8 treatments for \$100.00 per home. Starting in May and ending in August with 2 treatments per month.

We are also offering the exterior plus program. This program includes an application to the exterior of your home. This treatment controls insects such as bees, wasps, spiders, ants and all other creepy crawling friends (including box elder bugs) that come to visit us during the summer. We recommend 4 treatments, April, June, August, October (you have unlimited services between treatments if needed). The cost for this program is \$50.00 per treatment.

NOTE: Wolverine Pest Services agrees to treat surrounding parks at Lake Victoria at no cost to the association, provided we have a minimum of 30 homes signed up for our programs.
